

- b. operated and maintained in a manner consistent with good operating and maintenance practices; and
- c. operated and maintained in accordance with the manufacturer's specifications and the applicable terms and conditions of this General Permit.

## **5. Permit Modification, Suspension and Revocation**

This General Permit may be modified, suspended, or revoked if the Department determines that the affected facility cannot be adequately regulated under this General Permit.

Any authorization to construct and/or operate a natural gas, coal bed methane or gob gas production or recovery facility under this General Permit that is granted to a person by the Department may be suspended or revoked if the Department determines that, at any time, that person has failed to construct and/or operate the natural gas, coal bed methane or gob gas production or recovery facility in compliance with the terms and conditions of this General Permit. Upon suspension or revocation of the authorization to construct and/or operate a natural gas, coal bed methane or gob gas production or recovery facility under this General Permit, construction shall immediately be ceased and/or the respective natural gas, coal bed methane or gob gas production or recovery facility shall not thereafter be operated.

## **6. Notice Requirements**

The applications and notifications required by 25 Pa. Code § 127.621 shall be submitted to the appropriate Regional Office responsible for issuing general permits in the county in which the natural gas, coal bed methane or gob gas production or recovery facility is or will be located. As required under § 127.621(b), the application shall be either hand delivered or transmitted by certified mail, return receipt requested.

The permittee shall not construct a new source under this General Permit until and unless the appropriate Regional Office is notified that the construction is to be conducted and written approval to construct is received. This General Permit may be used by a new source to authorize operation provided that the Department receives written notice from the permittee of the completion of construction and the intent to commence operation at least five (5) working days prior to completion of construction.

The permittee shall notify the Department by telephone within twenty-four (24) hours of the discovery of any malfunction of a natural gas, coal bed methane or gob gas production or recovery facility operating pursuant to this General Permit, or any malfunction of an associated air cleaning device that results in, or may possibly be resulting in, the emission of air contaminants in excess of any applicable limitation specified herein or in excess of the limitations specified in any applicable rule or regulation contained in 25 Pa. Code Chapters 121 through 145, or that otherwise results in, or may possibly be resulting in, noncompliance with the requirements specified in any applicable condition of this General Permit. If the permittee is unable to provide notification within twenty-four (24) hours of discovery due to a weekend or holiday, the notification shall be made to the Department by no later than 4 p.m. on the first Department business day following the respective weekend or holiday. The permittee shall additionally provide whatever subsequent written report the Department may request regarding any reported malfunction.
