

7. Term of Permit

Authority to operate under this General Permit is granted for a fixed term of five (5) years. The Department will notify each applicant, in writing, when authority to operate under this General Permit is granted.

8 Permit Fees

This General Permit establishes the following plan approval application, operating permit application and operating permit renewal fee:

Three hundred seventy-five dollars (\$375.00).

A plan approval application and fee is required each time the permittee installs or modifies a natural gas, coal bed methane or gob gas production or recovery facility in accordance with this General Permit.

9. Expiration and Renewal of Authorization

The permittee's right to construct and/or operate under this General Permit terminates on the date of expiration of the authorization unless a timely and complete renewal application is submitted to the Department thirty (30) days prior to the expiration date.

Upon receipt of a complete and timely application for renewal to construct and/or operate under this General Permit, the permittee may continue to construct and/or operate the natural gas, coal bed methane or gob gas production or recovery facility subject to final action by the Department on the renewal application, provided, in case of operation, that the natural gas, coal bed methane or gob gas production or recovery facility is operated in compliance with all terms and conditions of this General Permit. This right shall, however, cease to exist if the applicant fails to submit, by the deadline specified by the Department, any information required by the Department to process the renewal application.

The application for renewal shall include the identity of the owner or operator, location of the facility, current permit number, description of the engines and equipment located at the facility, information regarding previously imposed limitations, the appropriate renewal fee listed in Condition 8 and any other information requested by the Department.

10. Applicable Laws

Nothing in this General Permit relieves the permittee from the obligation to comply with all applicable Federal, state and local laws and regulations.

11. Prohibited Use

Any stationary air contamination source that is subject to the requirements of 25 Pa. Code Chapter 127, Subchapter D, E, G, or 25 Pa. Code § 129.91 (relating to control of major sources of NO_x and VOCs) may not construct or operate a natural gas, coal bed methane or gob gas production or recovery facility under this General Permit. This General Permit shall not be used for the installation of internal combustion engine(s) with a rated capacity of more than 1500 bhp.
